

MOBILE PRICING GUIDE
Q1 APRIL - JUNE 2020 V2
Updated for June 2020

WHAT'S NEW

Re-Introduction of Vodafone Low User

Due to demand from our customers, we are pleased to be re-introducing a low user tariff into the VodaRed proposition this month too. The tariff priced at £7.50 per month includes 500mins, unlimited SMS and 500MB of inclusive data. Please note, as a low low user tariff it will be exempt from utilising any bundles, bolt-ons or services that don't come as standard.

Changes to roaming in Turkey

As of 1st June 2020, Turkey will no longer be classed as an EU Zone 2 roaming destination across all Vodafone and O2 tariffs. Turkey will be classified under Rest of World Zone 1, as such there will be some changes to the way in which you are billed for usage when travelling to this destination. The most noticeable change is that Turkey will no longer be a free to roam destination unless the tariff comes with the TravelFree roaming service.

They are both looking at the tablet with interest. The background is blurred, suggesting an office or meeting environment.

TravelFree

TravelFree is our enhanced version of Roam Like At Home (RLAH), not only giving you access to UK bundles within the listed EU Zone 1 destinations, but also covering destinations further afield. This allows end users to utilise their home tariff package in a number of destinations worldwide with no daily fees or monthly cost uplifts.

TravelFree Destinations

EU Zone 1 - Austria, Belgium, Bulgaria, Canary Islands, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, French Territories, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy (inc. Vatican City), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Norway, Poland, Portugal (inc. Madeira), Romania, Slovakia, Slovenia, Spain (inc. Balearic Islands), Sweden

EU Zone 2 - Channel Islands (inc. Guernsey, Jersey) and Isle of Man, Faroe Islands, San Marino, Turkey, Switzerland

Worldwide - Albania, Anguilla, Antigua, Aruba, Australia, Barbados, Bermuda, Bosnia & Herzegovina, Canada, Cayman Islands, Dominica, Ghana, Grenada, Jamaica, Kenya, Lesotho, Mexico, Montserrat, Mozambique, Netherlands Antilles, New Zealand, South Africa, St Kitts and Nevis, St Vincent, St Lucia, Trinidad & Tobago, Turks and Caicos, US Virgin Islands, USA.

For tariffs activated prior to 1st April 2020 UK out of bundle roaming rates were only available in EU zone 1.

For usage in any of the other inclusive destinations standard roaming rates would apply when outside of bundle.

TravelPlus

TravelPlus is an alternative to World Travel Select (WTS). It is only available on selected tariffs and is aligned directly with TravelFree. Like WTS, it offers an alternative to pence per minute rates, in the form of an opt-in daily roaming rate of £4 per day (exc. VAT), and will allow users full access to their UK bundles and allowances whilst roaming in a selection of worldwide destinations.

This must be opted into at point of sale and specifically covers data usage, SMS and calls in-country and/or back to the UK within the below listed countries:

TravelPlus Destinations:

Afghanistan, Andorra, Argentina, Armenia, Bahrain, Bangladesh, Bonaire, Brazil, British Virgin Islands, Cambodia, Chile, China, Columbia, Costa Rica, Curacao, Democratic Republic of Congo, Dominican Republic, Ecuador, Egypt, El Salvador, Fiji, Georgia, Guam, Guatemala, Guyana, Haiti, Honduras, Hong Kong, India, Indonesia, Israel, Japan, Jordan, Kazakhstan, Kuwait, Laos, Macau, Macedonia, Malaysia, Moldova, Mongolia, Montenegro, Morocco, Myanmar, Nicaragua, Oman, Pakistan, Panama, Papua New Guinea, Paraguay, Peru, Philippines, Puerto Rico, Qatar, Russia, Saudi Arabia, Serbia, Singapore, South Korea, South Sudan, Sri Lanka, Suriname, Swaziland, Taiwan, Tanzania, Thailand, Tonga, Ukraine, United Arab Emirates, Uruguay, Uzbekistan, Vanuatu, Vietnam, Western Samoa.

Please Note: All tariff versions that include TravelPlus created/released after March 2020 for O2 and April 2020 for VF, will offer UK out of bundle rates, as opposed to roaming rates which apply to all tariffs prior to those dates listed. Also, roaming services will invoice the daily roaming fee for any liable utilisation of service, for example, in some instances, CDRs may display events listed as "0Mb", this simply means data was used but as the amount was under a single Mb, the Kb value is not displayed within CDRs.

Worldtraveller

Allows users full access to their UK bundles and allowances whilst roaming worldwide for just £5.00 (exc. VAT) per day.

World Travel Select is available in the following countries:

> If a user exceeds their UK allowances, they will be liable to UK out of bundle rates

Bill Limits

Bill limits are a tool used to limit the total amount of out of allowance usage. It is defined in total usage expressed in £. The calculation for the limits resets every 30 days. It is a guaranteed service meaning that any possible usage that would cost more than a set limit will be credited back. Once barring is activated it can not be manually deactivated mid month. Any user that reaches the bill limit will need to wait for the counter to reset near the end of the calendar month. This service is activated on request.

GENERAL INFORMATION

FAIR USAGE POLICY

Unlimited Allowances

Orbex unlimited bundles are truly unlimited where usage is appropriate to subscription type. Inappropriate usage would be considered as the following:

- > Any usage outside normal commercial practice
- > Any usage made via automated means (also see Gateway/AIT FUP)
- > Any usage that damages or impairs the hosting network
- > Any usage considered fraudulent, abusive, illegal or a nuisance
- > Data usage where users regularly tether to 12 or more devices or have used 650GB of data twice within a 6 month period
- > Data usage where roaming outside of the UK and exceeding more than 25GB within a single billing period

We may investigate usage in order to ascertain whether your unlimited usage is in line with these guidelines. In the event inappropriate usage is determined then we reserve the right to restrict services, adjust the plan or terminate the agreement based on the severity of the misuse.

Gateways/Artificially Inflated Traffic (AIT)

Orbex does not allow SIMs to be used in any equipment which enables the routing of calls or data (including, without limitation, text or picture messages) from fixed apparatus or standard devices to mobile equipment, by establishing a mobile to mobile call or transmission. Nor does it allow the use of any equipment which enables the sending of bulk SMS, voice or data services. Orbex reserves the right to suspend without notice should we believe that such equipment is being used. During suspension, the liability for any access charges or calls will rest with the partner.

Roaming

In line with Roam Like At Home legislation, we have introduced a Fair Usage Policy to ensure end user allowances are being used for purpose whilst roaming.

Policy Terms...

Inclusive roaming services on our mobile tariffs have been built for business users who travel periodically, and not those who roam across foreign networks on a semi-permanent or permanent basis.

If a customer uses their mobile in destinations outside the UK that qualify for inclusive access to standard bundles (this includes those countries that qualify for daily roaming services such as World Travel Select and/or legislation such as Roam Like At Home), for more than 50% of the time in any four-month rolling period, they can expect to receive a communication requesting a moderation of roaming services.

If a customer's usage continues to exceed 50%, as described above, over the two-week period following the first notification, DWS reserves the right to either charge customers for this excessive usage or bar roaming services. Customers will be notified before any action is taken.
